THE SECRETORY IMMUNE SYSTEM*

Editors and Conference Organizers

JERRY R. MCGHEE AND JIRI MESTECKY

CONTENTS

Introductory Remarks. *By* J. R. MCGHEE xiii

Keynote Address: Mucosal Immunity. *By* L. Å. HANSON, S. AHLSTEDT, B. ANDERSSON, B. CARLSSON, M. F. COLE, J. R. CRUZ, U. DAHLGREN, T. H. ERICSSON, F. JALIL, S. R. KHAN, L. MELLANDER, R. SCHNEERSON, C. SVANBORG EDÉN, T. SÖDERSTRÖM, and C. WADSWORTH 1

Part I. Environmental Antigens and Their Effects on Secretory and Systemic Immunity

The Importance of IgA in Nonmucosal Immune Responses. *By* B. H. WAKSMAN 22

IgA Commitment: Models for B-Cell Differentiation and Possible Roles for T-Cells in Regulating B-Cell Development. *By* J. J. CEBRA, E. R. CEBRA, E. R. CLOUGH, J. A. FUHRMAN, J. L. KOMISAR, P. A. SCHWEITZER, and R. D. SHAHIN 25

Serologic and Molecular Genetic Studies of Rabbit Ig Heavy Chains: Evidence for Additional C_α and C_γ Genes. *By* K. L. KNIGHT, K. L. MUTH, C. L. MARTENS, S. J. CURRIER, J. L. GALLARDA, and W. C. HANLY 39

The IgA Response: Inductive Aspects, Regulatory Cells, and Effector Functions. *By* S. M. MICHALEK, J. R. MCGHEE, H. KIYONO, D. E. COLWELL, J. H. ELDRIDGE, M. J. WANNEMUEHLER, and W. J. KOOPMAN 48

Binding of Bacterial Lipopolysaccharide to Murine Lymphocytes. *By* D. M. JACOBS, D. B. ROBERTS, J. H. ELDRIDGE, and A. J. ROSENSPIRE 72

Colostrum-Derived Immunity and Maternal-Neonatal Interaction. *By* P. L. OGRA, G. A. LOSONSKY, and M. FISHAUT 82

Development of Immunological Capacity under Germfree and Conventional Conditions. *By* H. TLASKALOVÁ-HOGENOVÁ, J. ŠTERZL, R. ŠTĚPÁNKOVÁ, V. DLABAČ, V. VĚTVIČKA, P. ROSSMANN, L. MANDEL, and J. REJNEK 96

Humoral Antibody Responses to the Bacterial Polysaccharide Dextran B 1355. *By* M. F. KAGNOFF 114

The Role of Epithelial Cells in Gut-Associated Immune Reactivity. *By* D. E. BOCKMAN, W. R. BOYDSTON, and D. H. BEEZHOLD 129

*This series of papers is the result of a conference entitled The Secretory Immune System held May 4–7, 1982 by The New York Academy of Sciences.

Part II. Induction of the Secretory Immune Response or Systemic Tolerance

Oral Tolerance and Accessory-Cell Function of Peyer's Patches. *By* T. B. TOMASI, W. G. BARR, S. J. CHALLACOMBE, and G. CURRAN 145

The Mucosal Immunological Network: Compartmentalization of Lymphocytes, Natural Killer Cells, and Mast Cells. *By* J. BIENENSTOCK, A. D. BEFUS, M. MCDERMOTT, S. MIRSKI, K. ROSENTHAL, and A. TAGLIABUE 164

IgA-Immune Complex Renal Disease Induced by Mucosal Immunization. *By* S. N. EMANCIPATOR, G. R. GALLO and M. E. LAMM 171

Salivary Antibodies and Systemic Tolerance in Mice after Oral Immunization with Bacterial Antigens. *By* S. J. CHALLACOMBE 177

Migration and Regulation of B-Cells in the Mucosal Immune System. *By* J. M. PHILLIPS-QUAGLIATA, M. E. ROUX, M. ARNY, P. KELLY-HATFIELD, M. MCWILLIAMS, and M. E. LAMM 194

Cellular Circuitry Involved in Orally Induced Systemic Tolerance and Local Antibody Production. *By* J. A. MATTINGLY 204

Heterogeneity of B-Cells. *By* R. M. E. PARKHOUSE, E. M. ANDREW, A. CHAYEN, and S. MARSHALL-CLARKE 215

T-Helper Cell Activity in Intestinal Lamina Propria. *By* C. O. ELSON, D. B. WEISERBS, W. EALDING, and E. MACHELSKI 230

IgA Specific T-Cell Factor Produced by a Human T-T Hybridoma. *By* L. MAYER, S. M. FU, and H. G. KUNKEL 238

Part III. Regulation of Cells Engaged in Secretory and Systemic Immune Responses

Regulatory T-Cells in Murine Peyer's Patches Directing IgA-Specific Isotype Switching. *By* H. KAWANISHI and W. STROBER 243

IgA Rheumatoid Factor: Evidence for Independent Expression at Local Sites of Tissue Inflammation. *By* W. J. KOOPMAN, R. K. MILLER, S. S. CRAGO, J. MESTECKY, and R. E. SCHROHENLOHER 258

Regulation of the Immune Responses to a Streptococcal Antigen by Helper and Suppressor Functions in Man. *By* T. LEHNER 273

Suppression and Contrasuppression in the Regulation of Gut-Associated Immune Responses. *By* D. R. GREEN and S. ST. MARTIN 284

Function and Biosynthesis of Polymeric IgA. *By* J. MESTECKY, W. H. KUTTEH, T. A. BROWN, M. W. RUSSELL, J. O. PHILLIPS, Z. MOLDOVEANU, I. MORO, and S. S. CRAGO 292

Analysis of the Effector Functions of Different Populations of Mucosal Lymphocytes. *By* D. M. V. PARROTT, C. TAIT, S. MACKENZIE, A. MCI. MOWAT, M. D. J. DAVIES, and H. S. MICKLEM 307

The Role of IgE in Pathogenesis of Mucosal Viral Infections. *By* R. C. WELLIVER and P. L. OGRA 321

Aging and the Mucosal-Associated Lymphoid System. *By* M. R. SZEWCZUK and A. W. WADE 333

Mucosal Immune Responses in Malnutrition. *By* R. K. CHANDRA 345

Part IV. Transport of IgA and the Role of the Liver

The Secretory Immune System of Lactating Human Mammary Glands Compared with Other Exocrine Organs. *By* P. BRANDTZAEG 353

Function of the Human Liver in IgA Homeostasis in Plasma. By D. L. DELACROIX and J. P. VAERMAN 383

Differences in Processing of Polymeric IgA and Asialoglycoproteins by the Rat Liver. *By* B. J. UNDERDOWN, J. M. SCHIFF, B. NAGY, and M. M. FISHER 402

Comparative Aspects of the Hepatobiliary Transport of IgA. *By* E. ORLANS, J. V. PEPPARD, A. W. R. PAYNE, B. M. FITZHARRIS, B. M. MULLOCK, R. H. HINTON, and J. G. HALL 411

Induction and Expression of Antibodies in Secretions: The Ocular Immune System. *By* P. C. MONTGOMERY, A. AYYILDIZ, I. M. LEMAITRE-COELHO, J. P. VAERMAN, and J. H. ROCKEY 428

Transcellular Transport of Polymeric Immunoglobulin by Secretory Component: A Model System for Studying Intracellular Protein Sorting. *By* K. E. MOSTOV and G. BLOBEL 441

The Origins of Secretory IgA in Milk: A Shift during Lactation from a Serum Origin to Local Synthesis in the Mammary Gland. *By* J. F. HALSEY, C. S. MITCHELL, and S. J. MCKENZIE 452

Part V. Secretory and Systemic Immunity and Immune Dysfunctions

Deficient IgA Synthesis Viewed in the Context of Normal Development of IgA B-Cells. *By* M. D. COOPER, P. HABER, W. E. GATHINGS, M. MAYUMI, T. KURITANI, and D. E. BRILES 461

Isolation and Analysis of Anti-Idiotypic Antibodies from IgA-Deficient Sera. *By* C. CUNNINGHAM-RUNDLES 469

Alpha-Chain Disease: An Immunoproliferative Disease of the Secretory Immune System. *By* M. SELIGMANN and J. C. RAMBAUD 478

Abrogation of Tolerance to Fed Antigen and Induction of Cell-Mediated Immunity in the Gut-Associated Lymphoreticular Tissues. *By* A. FERGUSON, A. MCI. MOWAT, and S. STROBEL 486

Synthesis and Secretion of IgA, IgM, and IgG by Peripheral Blood Mononuclear Cells in Human Disease States, by Isolated Human Intestinal Mononuclear Cells, and by Human Bone Marrow Mononuclear Cells from Ribs. *By* R. P. MACDERMOTT, M. G. BEALE, C. D. ALLEY, G. S. NASH, M. J. BERTOVICH, and M. J. BRAGDON 498

Oral Route as Method for Immunizing against Mucosal Pathogens. *By* R. H. WALDMAN, J. STONE, V. LAZZELL, K.-CH. BERGMANN, R. KHAKOO, A. JACKNOWITZ, S. HOWARD, and C. ROSE 510

Cellular Determinants of Mammary Cell-Mediated Immunity in the Rat: Kinetics of Lymphocyte Subset Accumulation in the Rat Mammary Gland during Pregnancy and Lactation. *By* M. J. PARMELY and L. S. MANNING 517

Estrogen-Mediated Control of the Secretory Immune System in the Uterus of the Rat. *By* C. R. WIRA, D. A. SULLIVAN, and C. P. SANDOE 534

The Properties and Role of Receptors for IgA on Human Leukocytes. By M. W. FANGER, S. N. GOLDSTINE, and L. SHEN 552

Part VI. Effector Functions of Secretory and Serum IgA

Novel Mucosal Anti-microbial Functions Interfering with the Plasmid-Mediated Virulence Determinants of Adherence and Drug Resistance. By P. PORTER and M. A. LINGGOOD 564

Receptor Analogues and Anti-Pili Antibodies as Inhibitors of Bacterial Attachment *In Vivo* and *In Vitro*. By C. SVANBORG EDÉN, B. ANDERSSON, L. HAGBERG, L. Å. HANSON, H. LEFFLER, G. MAGNUSSON, G. NOORI, J. DAHMÉN, and T. SÖDERSTRÖM 580

Intestinal Uptake of Macromolecules: *In Vitro* and *In Vivo* Studies. By W. A. WALKER and K. J. BLOCH 593

T- and B-Cell Memory on Mucosal Surfaces. By R. GANGULY and R. H. WALDMAN 603

Occurrence and Nature of Bacterial IgA Proteases. By M. KILIAN, B. THOMSEN, T. E. PETERSEN, and H. S. BLEEG 612

Inhibition of Bacterial IgA Proteases by Human Secretory IgA and Serum. By J. V. GILBERT, A. G. PLAUT, B. LONGMAID, and M. E. LAMM 625

Adjuvants for Secretory Immune Responses. By M. A. TAUBMAN, J. L. EBERSOLE, D. J. SMITH, and W. STACK 637

Effect of Adjuvants on Orally Administered Antigens. By R. J. GENCO, R. LINZER, and R. T. EVANS 650

The Influence of Muramyl Dipeptide on the Secretory Immune Response. By J. E. BUTLER, H. B. RICHERSON, P. A. SWANSON, W. C. KOPP, and M. T. SUELZER 669

Part VII. Routes of Immunization, Form of Antigen for IgA Responses, and Passive Immunity

Escherichia Coli Strains Producing *Streptococcus Mutans* Proteins Responsible for Colonization and Virulence. By R. CURTISS III, R. G. HOLT, R. G. BARLETTA, J. P. ROBESON, and S. SAITO 688

Biologic Function of the Serum IgA System: Modulation of Complement-Mediated Effector Mechanisms and Conservation of Antigenic Mass. By J. M. GRIFFISS 697

Passive Immunity to Transmissible Gastroenteritis Virus: Intramammary Viral Inoculation of Sows. By L. J. SAIF and E. H. BOHL 708

Oral Immunization against Experimental Cholera: The Role of Antigen Form and Antigen Combinations in Evoking Protection. By N. F. PIERCE, W. C. CRAY, JR., J. B. SACCI, JR., J. P. CRAIG, R. GERMANIER, and E. FÜRER 724

Local IgA-Memory Response to Bacterial Antigens. By D. F. KEREN, P. J. SCOTT, R. A. MCDONALD, and S. E. KERN 734

Restrictions on Mucosal B-Lymphocyte Function in Man. By R. CLANCY, A. W. CRIPPS, A. J. HUSBAND, and M. GLEESON 745

Monoclonal Antibodies Recognizing the Secreted and Membrane Domains of the IgA Dimer Receptor. *By* L. C. KÜHN and J.-P. KRAEHENBUHL 751

Part VIII. Poster Papers

Secretory IgA Antibodies from Bile of Immunized Rats Reactive with Trophozoites of *Entamoeba Histolytica*. *By* G. ACOSTA, R. CAMPOS, C. BARRANCO, A. ISIBASI, and J. KUMATE 760

IgA Antibody Levels in Human Tears, Saliva, and Serum. *By* M. R. ALLANSMITH, J. L. EBERSOLE, and C. A. BURNS 766

Effect of Enteric Priming with Reovirus and Lipoidal Amine Adjuvant on Mucosal Lymphatic Tissue and Anti-Viral IgA Secretion. *By* A. O. ANDERSON, A. PLOTNER, and D. H. RUBIN 769

T-Cell Help for the IgA Response in CAF_1 Mice. *By* M. ARNY, P. KELLY-HATFIELD, M. E. LAMM, and J. M. PHILLIPS-QUAGLIATA 776

Immunology of the Mucosal Response to Antigens of Dietary and Microbial Orgin Affecting Intestinal Function and Nutritional Performance. *By* M. E. J. BARRATT, W. D. ALLEN and P. PORTER 778

Gut-Associated Precursor Immunocompetence in Relation to Bacterial Polysaccharide Dextran B-1355 Subsists in Absence of Systemic Response. *By* C. G. BELL 780

Induction of (Partial) Systemic Tolerance in Primed Rats Subjected to Prolonged Oral Administration of Antigen. *By* K. J. BLOCH, R. PERRY, M. BLOCH, and W. A. WALKER 787

Salivary IgA to Cariogenic Microorganisms in Children: Correlation with Caries Activity. *By* R. W. BOLTON and G. L. HLAVA 789

IgA in Liver Disease. *By* K. G. CHANDY, E. ELIAS, S. HUBSCHER, M. KHAN, J. BERG, and D. BURNETT 790

Expression of Anti-Phosphocholine IgA and IgE Antibodies in (CBA/N × BALB/c)F_1 Mice Following Secondary Stimulation with *Ascaris Suum*. *By* E. R. CLOUGH and J. J. CEBRA 792

IgA Hybridomas to Cell-Surface Components of Pathogenic Bacteria. *By* D. E. COLWELL, K. A. GOLLAHON, I. MORISAKI, J. R. MCGHEE, and S. M. MICHALEK 794

Regulation of IgA Subclasses in Pokeweed Mitogen Stimulated Cultures. *By* M. E. CONLEY and W. J. KOOPMAN 797

Transfer of IgA into Rat Bile: Ultrastructural Demonstration. *By* P. J. COURTOY, J. N. LIMET, J. QUINTART, Y.-J. SCHNEIDER, J. P. VAERMAN, and P. BAUDHUIN 799

Distribution of IgA_1 and IgA_2 Subclasses in Human Tissue: Correlation with the Presence of J-Chain. *By* S. S. CRAGO, W. H. KUTTEH, S. J. PRINCE, J. RADL, J. J. HAAIJMAN, and J. MESTECKY 803

Divergent Shifts in T-Lymphocyte Subpopulations among Mucosal Lymphoid Tissues of Mice with Increasing Age. *By* C. A. CROWLEY, A. W. WADE, and M. R. SZEWCZUK 806

Specific Immune Response in Human Milk to Oral Immunization with Food Proteins. *By* J. R. CRUZ and L. Å. HANSON 808

Eimeria Tenella: Control of Parasitic Behavior through Mucosal Immunity and In-Feed Immunization. *By* P. J. DAVIS and P. PORTER 810

IgA-Size and IgA-Subclass Distribution in Serum and Secretions. *By* D. L. DELACROIX, K. B. ELKON, and J. P. VAERMAN 812

Effect of Adjuvants on Local sIgA Responses. *By* J. L. EBERSOLE, M. A. TAUBMAN, and D. J. SMITH 815

Immunoregulation Abnormalities in Patients with IgA Nephropathy. J. EGIDO, R. BLASCO, and J. SANCHO 817

Peyer's Patch Accessory Cells Bear I-A. *By* J. H. ELDRIDGE, Y. LEE, H. KIYONO, D. M. SPALDING, K. A. GOLLAHON, G. W. WOOD, W. J. KOOPMAN, and J. R. MCGHEE 819

Immunofluorescent and Immunocytochemical Localization of Secretory Component and Immunoglobulins in Human Liver. *By* C. FOSS-BOWMAN, A. L. JONES, S. DEJBAKHSH, and I. S. GOLDMAN 822

Role of IgA Antibody in Phagocytosis by Human Polymorphonuclear Leukocytes. *By* S. N. GOLDSTINE, A. TSAI, C. J. KEMP, and M. W. FANGER 824

Comparative Study of the Salivary and Serum Antibody, and Cell-Mediated Responses to Local Injection of *Streptococcus Mutans* Ribosomes and Whole Cells. *By* R. L. GREGORY, I. L. SHECHMEISTER, and S. ROSEN 825

Generation and Migration Patterns of Intestinal T- and B-Lymphocytes in Response to Local Antigen. *By* A. J. HUSBAND, A. W. CRIPPS, and R. L. CLANCY 828

Murine Peyer's Patch T-Helper Cell Clones That Preferentially Support IgA Responses. *By* H. KIYONO, L. M. MOSTELLER, J. H. ELDRIDGE, S. M. MICHALEK, W. J. KOOPMAN, and J. R. MCGHEE 829

The Influence of Pregnancy and Lactation on Transport of Polymeric IgA across Epithelial Surfaces. *By* R. KLEINMAN, P. HARMATZ, D. MCCLENATHAN, B. BUNNELL, K. J. BLOCH, and W. A. WALKER 831

Characteristics of IgA-Secreting Hybridomas Derived from Gut-Associated Lymphoid Tissue. *By* J. L. KOMISAR, J. A. FUHRMAN, and J. J. CEBRA 833

I-A Distribution on Murine Peyer's Patch and Splenic Lymphocytes. *By* Y. LEE, J. H. ELDRIDGE, H. KIYONO, and J. R. MCGHEE 835

Hepatic Uptake and Transfer into Bile of Polymeric IgA, Anti-Secretory Component IgG, Haptoglobin-Hemoglobin Complex, Galactosylated Serum Albumin, and Horseradish Peroxidase: A Comparative Biochemical Study in the Rat. *By* J. N. LIMET, J. QUINTART, P. J. COURTOY, J. P. VAERMAN, and Y.-J. SCHNEIDER 838

Prevention and Treatment of Gastrointestinal Infections in Infants by Using Immunobiological Methods. *By* R. LODINOVÁ, B. KORYCH, Z. BARTÁKOVÁ, and H. BRANÁ 841

Effects of Sex Differences and Gonadal Hormone Alterations on the

Accumulation of Mesenteric Lymphoblasts in the Small Intestine. By S. Mirski, A. D. Befus, and J. Bienenstock 845

Antibacterial Properties of Milk: IgA-Peroxidase-Lactoferrin Interactions. By Z. Moldoveanu, J. Tenovuo, K. M. Pruitt, B. Mansson-Rahemtulla, and J. Mestecky 848

Augmentation of IgA Responses and Caries Immunity by Oral Adjuvants. By I. Morisaki, M. Torii, S. Hamada, J. R. McGhee, and S. M. Michalek 851

Evidence That Tolerance of Cell-Mediated Immunity in Mice Fed Ovalbumin is Due to Suppressor Cells Activated by Intestinally Derived Protein Moieties. By A. McI. Mowat, S. Strobel, M. G. Pickering, H. E. Drummond, and A. Ferguson 853

Differential Immunodepression of Monomeric IgA, but Not Polymeric IgA, by Patients with IgG Myeloma. By M. M. Newkirk, M. H. Klein, and B. J. Underdown 855

Characterization of the Antigenic Regions of an *E. Coli* Pilus Protein. By W. Paranchych, E. Worobec, L. S. Frost, and R. S. Hodges 856

Elimination of Circulating Antigen into Bile by Endogenous IgA Antibody in Rats. By J. V. Peppard, E. Orlans, A. W. R. Payne, and E. M. Andrew 857

Selective Hepatobiliary Transport of Monoclonal IgG, but Not IgM Anti-Idiotypic Antibodies, by IgA. By J. O. Phillips, M. W. Russell, T. A. Brown, and J. Mestecky 859

The Clearance Kinetics and Hepatic Localization of IgA-Immune Complexes in Mice. By A. Rifai and M. Mannik 861

Monoclonal Antibodies in Identification of Macrophages/Natural Killer Cells in Murine Intestinal Mucosa. By M. J. Roy and W. R. Brown 864

Potentiation of the Secretory IgA Response by Oral and Enteric Administration of CP 20,961. By D. H. Rubin, A. O. Anderson, D. Lucis, and S. M. Michalek 866

IgA-Mediated Hepatobiliary Clearance of Bacterial Antigens. By M. W. Russell, T. A. Brown, R. Kulhavy, and J. Mestecky 871

Induction of IgA Expression by B-Cells Responsive to Thymus-Independent Antigens. By R. D. Shahin, P. A. Schweitzer, and J. J. Cebra 873

Aging and the Salivary Immune Response in Hamsters. By D. J. Smith, J. L. Ebersole, and M. A. Taubman 875

The Nature of IgA in Secretions from Children. By C. H. Sørensen 877

Identification of a Nonadherent Accessory Cell in Murine Peyer's Patches. By D. M. Spalding, W. J. Koopman, and J. R. McGhee 880

Estradiol Regulation of Secretory Component in the Rat Uterus. By D. A. Sullivan and C. R. Wira 882

Expression of Immunologlobulin Isotypes by Lymphoid Cells Isolated from the Lamina Propria of Mouse Small Intestine. By J. Tseng 885

Impairment of Secondary Memory B-Lymphocytes by Oral Immunization of Aging Mice. By A. W. WADE and M. R. SZEWCZUK 887

Immune Regulation of Suppression in Offspring of Orally Tolerized Mice. By M. J. WANNEMUEHLER, S. M. MICHALEK, and J. R. MCGHEE 888

IgA-Antibody Response to Vasectomy. By S. S. WITKIN, J. M. RICHARDS, J. M. BEDFORD, and G. ZELIKOVSKY 890
